BANGOR DAILY WHIG AND COURIER.

BY WHEELER & LYNDE. SATURDAY MORNING, MAY 8, 1858. VOLUME XXIV.....NUMBER 264.

Ayer's Pills

Are particularly adapted to derangements of the digestive apparatus, and those arising from impurity of the blood. A large proportion of the complaints to which mankind are subject, of a kind originable in some of these, and common nearly to them all, are found to cure many very, if not all, of these diseases.

Subjoined are the statements of persons of the highest character and station, of their efforts in their practice.

AS A FAMILY PHYSIC.

From Dr. E. W. Carterlett, of New Orleans.

"Your Pills are the prince of purges. Their superior qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease."

FOR JAUNDICE AND ALL LIVER COMPLAINTS.

From Dr. Theodore Bell, of New York City.

"Not only are your Pills admirably adapted for their purpose, as an aperient, but I find their peculiar effects upon the liver very marked indeed. They have in my practice proved more effectual for the cure of biliousness than any one remedy I can mention. I discharge a duty in bearing a testimony to which is worth the confidence of the profession and the people."

DYSPEPSIA — INDIGESTION.

From Dr. Henry J. Bode, of St. Louis.

"The Pills you were kind enough to send me have been all used in my practice, and have satisfied me that they are truly an extraordinary medicine. So peculiarly are they adapted to the disease of the human system, that they seem to work upon them alone. I have cured some cases of dyspepsia as I thought, with them, which had resisted the other remedies we commonly use. Indeed I have experimentally found them to be effectual in almost all the complaints for which you recommend them."

DYSENTERY — DIARRHŒA — RELAXA.

From Dr. J. G. Green, of Chicago.

"Your Pills have had a long trial in my practice, and I hold them in estimation as one of the best aperients I have found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses, for bilious dysentery and chronic diarrhœa. Their sugar-coating makes them very acceptable and convenient for the use of women and children."

INTERNAL OBSTRUCTION — WORMS — SUPPRESSION.

From Mr. E. Sherer, late practicer as a Physician and Midwife in Boston.

"I find one or two large doses of your Pills, taken at the proper time, are excellent promoters of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have, that I recommend no other to my patients."

CONSTIPATION — COSTIVENESS.

From Dr. J. P. Dubuck, Montreal, Canada.

"Too much cannot be said of your Pills for the use of confirmed invalids. Members of our fraternity have found them as efficacious as I have, they should join me in proclaiming for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the precursor of others that are worse. I believe conscientiously they will eradicate it in the liver, but your Pills affect that organ and cure the disease."

IMPURITIES OF THE BLOOD — SCROFULA — ERYSIPELAS — SALT RHEUM — TETTER — TUMORS — RHEUMATISM — GOUT — NEURALGIA.

From Dr. Rachel Bell, Philadelphia.

"You were right, Doctor, in saying that your Pills purify the blood. They do that. I have used them of late years in practice, in degree with your statements of their effects. They eradicate the scrofulous humor, and carry off the impurities that stagnate in the blood, engendering disease. They invigorate the organs of digestion, and infuse vitality and vigor into the system.

"Which remedies as you present are a national benefit, and you deserve great credit for them."

FOR HEADACHE — SICK HEADACHE — FOUL STOMACH — PILES — DROPSY — PLETHORA — PARALYSIS — FITS, &c.

From Dr. Roland Boyd, Baltimore.

"DEAR DR. AYER: I cannot answer your what complaints I have cured with your Pills better than to say all those who ever tried your medicine, have placed great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly."

☞ Most of the Pills in market contain Mercury, which, though a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its injudicious use. Those contain no mercury or mineral substance whatever.

Ayer's Cherry Pectoral

has long been manufactured by a practical chemist, and every bottle of it under his own eye, with invariable accuracy and care. It is sealed and protected by law against counterfeits, and consequently can be relied on as genuine, without adulteration. It supplies the surest remedy the world has ever known for the cure of all pulmonary complaints, for COUGHS, COLDS, HOARSENESS, ASTHMA, CROUP, WHOOPING COUGH, BRONCHITIS, INCIPIENT CONSUMPTION, and for the relief of consumptive patients in advanced stages of the disease. As this medicine has been more widely and better known, this medicine has gradually become the last reliance of the afflicted, from the log cabin of the American woodman to the palaces of European kings. Throughout this entire country, in every state and city, and indeed almost every hamlet, it contains, CHERRY PECTORAL is known to be the best of all remedies for diseases of the throat and lungs. In many foreign countries it is extensively used by their most intelligent physicians. If there is any dependence on what men of every station certify it has done for others, if we can trust our own eyes when we see the diseased affections of the lungs yield to it, if we can depend on the assurance of intelligent physicians, whose business it is to know, in short, if there is any reliance upon anything, then is it irrefutably proved that this medicine does cure the class of diseases it is designed for, beyond any and all other remedies known to mankind. Nothing but its intrinsic virtues, and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies have to thrust upon the community, have failed, and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and remarkable to be forgotten.

☞ REMOVAL.

United States and Foreign

PATENT AGENCY.

SAMUEL COOPER,

Late Principal Examiner of Patents in the United States Patent Office, at Washington,

HAS REMOVED HIS OFFICE TO

WEBSTER BANK BUILDING,

13 Exchange Street, Boston,

PATENTS secured in the United States, and in all other patent-granting countries. Specifications and drawings prepared. Caveats filed. Reconsiderations procured, of applications that have been rejected upon imperfectly prepared papers. Interferences prosecuted. Re-issues and extensions procured, and in general, all business connected with the Patent Office transacted with care and promptness.

British and other foreign patents procured thro' prompt and confidential agents, in London and Paris.

Persons residing at a distance may obtain all necessary information, and have their business transacted, by writing to the subscriber, without the trouble and expense of a visit to Washington.

He begs leave to refer those unacquainted with him to the following testimonials:—

From the Hon. Charles Mason, Commissioner of Patents.

U. S. PATENT OFFICE, Feb. 22, 1855.

I take great pleasure in stating that during the time I have been acting as Commissioner of Patents, Samuel Cooper, Esq., of Boston, has been engaged as Solicitor, and has been in that capacity in constant correspondence and intercourse with this Office; he has evinced a thorough acquaintance with the Patent Law, and with the rules and practice of the Office, a close attention to the interests of his clients, and a marked candor and courtesy that has rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with this office with whom I am acquainted.

CHARLES MASON, *Commissioner.*

From the Examiners of the Patent Office.

The undersigned, Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, late a principal Examiner in this office, and take pleasure in stating that he is a gentleman of the highest moral character, of unique learned knowledge in the business and practice of this office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.

HENRY B. RENWICK, L. D. GALE, S. H. LANE, } Principal Examiners.

F. SOUTHGATE SMITH, T. R. PEALE, THOS. T. EVERETT, WM. C. LANGDON, } Assistant Examiners.

From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues.

WM. P. N. FITZGERALD, *Late Principal Examiner of Patents.*

Boston, Jan. 19, 1858. 3tawly

E. L. LEGROS,

Wig Maker and Hair Cutter,

A. BARTLETT'S.

IMPORTANT DISCOVERY!

CONSUMPTION CURABLE

BY THE USE OF

Fousel's Pabulum Vitæ.

This VEGETABLE PRODUCTION has proved itself to be the most remarkable medicinal preparation ever discovered, for the effectual cure of

Pulmonary Consumption,

and also of COUGHS, COLDS, SORENESS OF THE CHEST, BRONCHIAL IRRITATION, and all other affections of the air passages, which have a tendency to produce that FEARFUL MALADY in those predisposed.

This wonderful discovery, from its volatile nature, gives vapors freely, and consequently acts DIRECTLY upon the Lungs and Air Passages, arrests the development of tubercles in the lungs, and in their softening process causes the matter to be expectorated without difficulty, and effectually heals the ulcerated cavity; it quiets the cough, subdues the night sweats, she hectic fever and the chills, and restores the healthy functions to all the organs of the body. A trial of one bottle will speedily convince the most skeptical of its astonishing efficacy, and its superiority to all other specifics.

CERTIFICATE OF DR. A. A. HAYES in reference to the *vaunted* virtues of this great discovery:

"This preparation, by chemical analysis was proved to be free from Opium or any of its compounds, nor were any of the Alkaloids present. It does not contain any mercurial or mineral substance, but consists wholly of volatile, diffusible agents, which afford vapors freely at a moderate temperature. Most of the substances present are officinally used in alleviating pulmonary disease; but the device by which they are combined is new and original, and adapts the compound to inhalation, or extemporaneous administration."

Respectfully, (Signed) "A. A. HAYES,

"State Assayer."

10 Boylston street, Boston, Dec. 19, 1857.

Directions in English, French, and German, accompany each package. Price $3 per bottle.

All orders by mail, or express, accompanied by the money, will be promptly attended to.

LEA & PERRINS'

CELEBRATED

WORCESTERSHIRE SAUCE,

PRONOUNCED BY

CONNOISSEURS

TO BE THE

"Only Good Sauce"

AND APPLICABLE TO

EVERY VARIETY

OF DISH.

EXTRACT

of a Letter from a

Medical Gentleman

AT MADRAS

TO HIS BROTHER

at

Worcester, May, 1851.

"Tell LEA & PERRINS their Sauce is highly esteemed in India, and is, in my opinion, the most palatable, as well as the most wholesome sauce that is made."

The only Medal awarded by the Jury of the New York Exhibition, for Foreign Sauces, was obtained by LEA & PERRINS for their WORCESTERSHIRE SAUCE, the world-wide fame of which, having led to numerous imitations, purchasers are earnestly requested to see that the names of "LEA & PERRINS" are impressed upon the Bottle and Stopper, and printed upon the Labels.

A New and Valuable Discovery!

TIME AND MONEY SAVED.

The Washer, Woman's Friend and Helper!!

HALGATE'S CELEBRATED

LAUNDRESS' SECRET!

The Quickest, Cheapest, Easiest and Pleasantest mode of Cleaning Clothes yet discovered. No Boiling, Pounding, or Rubbing required, but all performed in simple Warm Water.

THE "LAUNDRESS' SECRET" has been thoroughly tested by the most inexperienced Laundresses, and has not failed in a single instance to give entire satisfaction. Its tendency is to loosen the adhesive quality of the dirt without injury to the fabric; it gives the garments a beautiful white appearance, and clothes that generally fade when washed by the ordinary soaps, compounds, etc., by this process, are warranted to remain firm; the color is not changed in the least; the wear and tear of clothing that must necessarily attend washings of the old process, is entirely removed, and not one-fourth the labor is required to do the washing of the family. Unlike the ordinary process, the washing is performed in simple warm water, and any kind of fabric can be washed with perfect safety. The washing that now takes half a day to perform, by our process can be done in one hour.

Don't be without it a Single Day.

Will you go on with the old process, doing your washing in half a day, scrubbing and rubbing at the wash-board, while the means of cleansing your clothes much cheaper, quicker, and easier, is at hand? Believing a trial to be sufficient "to the matter of choice," in your own hands, we respectfully solicit a fair trial of our preparation.

This preparation has recently been used by some 75 families in the towns of Oldtown and Orono, who certify that it is a worthy preparation; that the *bathing is entirely dispensed with and one half the rubbing*, and they cordially recommend it to families and laundresses.

For sale by N. S. HARLOW, Druggist No. 4 Smith's Block, Bangor, Me., who will supply traders on liberal terms.

☞ Price, 20 Cents a Bottle.

HENRY K. BARNES, Proprietor.

Sketch of Mr. Hamlin's Remarks on the Aroostook Railroad Bill.

In the Senate, March 23, on the bill granting the aid of the State to the Aroostook Railroad Mr Hamlin of Penobscot, addressed the Senate at length in favor of the measure—From the notes we took at the time, we have, at the request of several friends written out the following sketch —*Bangor Jour.*

Mr Hamlin thanked the honorable Senator from Hancock, Mr Wasson, for the able and thorough manner in which in his speech he had presented the subject to the Senate It was his duty to have been expected that so full an investigation should have been given, and so just and elaborate statement made of the value and extent of the resources of the Aroostook country, by any one at the Senate board, and less of all, perhaps, by one who lives upon the strong soil, near the rock bound coast of Hancock county, where most of the deep furrows plowed, are upon the ocean wave But the high appreciation of the beauty, the extent and the fertility of the interior of the State is to be attributed to the fact that the honorable Senator had been to the Aroostook and made himself acquainted with its resources and the advantages which it offers to the hardy settler, willing to devote himself to the noble and intellectual work of establishing for himself an independent and thriving home in a healthful climate, a generous soil, and amidst the growing institutions of New England freedom and civilization Wherever visits that country, will be satisfied that there are abundant resources of natural wealth slumbering there which only require the art and enterprise of man to develop in a high degree The road is but one great hindrance one great drawback to the rapid development and unfolding of the wide region of the Aroostook country and that is the want of communication with the rest of the world This want can most effectually be supplied by the construction of a railroad

The view of the subject Mr Hamlin said was not new to him—not depending upon any special efforts made there on to the railroad projects now before the Legislature Twenty years ago he was the Land Agent of Maine and at the time on visiting the Aroostook he was surprised to find so many rich natural resources presenting themselves on every hand He not only saw and was impressed with the value of the country, but he made note of the fact at the time A man may sometimes repeat himself and he would not do so to read a few passages from his report made in 1838 as Land Agent. (The report was then printed and circulated, and the views then expressed so coincidently with his present view upon the value of the Aroostook country, and the importance and necessity of opening the country to settlement, by means of a railway communication—Mr Hamlin read at length from his report of 1838 to which we ask the reader to refer, instead of our republishing at the present time

The thought pressed upon him at the time he made this examination how can this country be made available to Maine? He felt confident that it could only be made an feeling in interest, and in business relation connected with the general population of the State by a railroad extending through that country—But a most serious question in an enterprise of this kind it will cost? He was willing that it should rest upon the simple issue as to whether it would pay, and he believed that it could be made definitely to appear that it would pay, and cannot fail to pay when the whole subject is fully elaborated At present, we have only partial statistics in any of the departments, and can therefore only give general statements leading to their results

What is now sought to be obtained is the aid of the State to the amount of twelve thousand dollars a mile, in the scrip of the State, payable in forty years for every ten miles of railroad which the Aroostook railroad company shall build and put in running order, up the Penobscot river above Milford. The company is first to put the hands in their pocket and build ten miles of the road, and then to sell and dispose of the road to the State to receive the State scrip for one hundred and twenty thousand dollars; and then by building ten more miles, to receive a like sum and so on for every ten miles until the road shall be completed. It would take several years in this way, to complete the road, but every section of ten miles, when completed, would be earning something, and at the same time would give increased activity to business and aid in the settlement of the Lands in the Aroostook by the assurance it would give that in relatively the means of easy communication would be afforded

Let us take a view of the region of country to be affected specially by the construction of this railroad After we pass the back bone of the State, formed of the Katahdin mountain and its range of highways, in going east, we come upon a country of entirely different geological character, and belonging to the limestone formation, corresponding to the western states In this region, there are one hundred and sixty townships of the best of land for cultivation, free from stones, with a friable soil not interrupted by bogs A man, when he was in that country, once offered to carry him over the road free, if he could point out, anywhere on the route, twenty five acres of land that would not make a good farm He examined very closely, not believing that the land could be so uniformly good, but he had to give it up The land was all fit for cultivation Mr Hamlin here read from the report of Mr Goodale, the Secretary of the Board of Agriculture, giving the facts he observed and the impressions he received, in his visit to the Aroostook He referred to those statements of Mr Goodale, as those of a practical and reliable man, and worthy of the highest confidence The region spoken of as examined by Mr Goodale, embraced an area of sixty townships but Mr Hamlin said that the actual area of equal quality was one hundred and sixty townships, of six miles square each. This large extent of beautiful country, with an easy and fertile soil, is flanked by the Mount Katahdin range, which is the inexhaustible wood lot and lumber region of Maine, and from which the people may draw for all time to come I should be kept for this purpose, and should be regarded as necessary to the State as a wood lot to a farmer

But it is said that the climate is cold, and that crops may be cut off by frosts He made a close comparison of the climate with that of various parts of Europe, and especially with that of Russia, where no difficulty is felt in the profitable cultivation of hemp and flax, and rye and show the great advantages yet to be realized in this country in the cultivation and manufacture of flax, the demand for which is rapidly increasing and which in the next half century, will be regarded as the cotton crop of the North

Maine, he said, can afford to make even a generous effort to people this great region of the Aroostook. The people of Maine have run into ship building, and banks and speculation, until these have engulphed them in commercial distress and bankruptcy But the enduring wealth of the State is in the land, and in her agricultural resources and capacities, but which have been too much neglected It is recently, and in a limited degree, that the State has undertaken to encourage and honor agriculture as it deserves Something has been done recently in the able reports of the Secretary of the Board of Agriculture, and the farming community has been encouraged thereby, and agriculture has sprung forward to a more commanding position than it ever before occupied This is a movement in the right direction and the State, is slowly reaping the advantage in the march of improvement that is making among farmers all over the State Men, as they grow old and wise, desire to get back, at last, to the cultivation of the land—to rural pursuits—to the healthful, honest business which engaged the attention of the first man, when God gave him, the beautiful possession a garden The true condition for wealth and prosperity among a people is that of progressive farming

The question may be asked, how it happens that this region of the Aroostook is not settled? The answer to this question is to be found in the want of means of communication Mr Hamlin and from the Agricultural Report, showing the embarrassments which the settlers felt for the want of roads and the means of getting their products to market He related an interview which he had with a remote settler who deplored the want of society He had good crops—good stock and abundance, but he wanted neighbors, and in describing the slow progress of settlement, he declared that even the skunks had not yet got above Lincoln

Mr Hamlin gave it as his opinion that a railroad to Lincoln would to-day be a paying road, and would greatly assist in the growth of the country If the road could be built to Lincoln, they could afford to wait five years for its further extension towards the Aroostook, and all the while be reaping advantages from it, not only to Bangor and vicinity, but in the settlement of the public lands

The people on the Penobscot had already expended so much money in railroads and lost it that they were unable to take hold and build their road to Lincoln, although satisfied that when built, it would prove a paying road The road in Maine which would have more transportation and passengers He was told he might at Mattawamkeag Point at one time, when six hundred men were therefore entertainment These men had come on the drives of logs from the upper waters of the Penobscot and about the great lakes, where they had been in employ during a long winter, and on approaching the well known hotel, they quit their logs and made a regular stampede for the hotel declaring that they should be unless they could have at least one meal cooked by a woman These men, and all engaged in the lumbering and mining business with all their transportation of supplies and produce would pass over the road

The road can be built very cheaply, as nature has provided an easy grade, and there is abundant timber upon the route Now of the road would pay when built to Mattawamkeag of which he was fully satisfied from that point it would be settled along gradually towards the Aroostook, as business and population increased He should be opposed to the construction of the road above Mattawamkeag, any farther than the whole road could be made to pay, The road built to that point and we can all afford to wait awhile for its further progress

Unless the railroad to the Aroostook is constructed, we shall practically lose to Maine the trade of that country, for its business, and perhaps it sympathies will go to New Brunswick so that the plan of building the road commends itself as a matter of self defense—The large and beautiful country of one hundred and sixty townships, capable of sustaining a population of a million of people, must be saved to Maine

Mr Hamlin stated that he had seen great changes in the business of eastern Maine Not many years since large droves of cattle were driven from Kennebec county to the eastern border of the State and the silver and the gold from New Brunswick were brought back in return But now it is very common to see equally large droves of cattle taken from Aroostook and sold to the farmers on the Kennebec

If the bills and resolves before the Legislature are duly enacted it was perhaps difficult to say who could be immediately done by means of them They would be a sort of elephant—very difficult to manage, because it would be necessary in the first place, to raise sufficient money to build and equip the first ten miles of the railroad This would be a difficult task, but the Penobscot people were somewhat remarkable, and though they might be seemingly depressed and dead, yet with a good prospect and a noble object ahead, they could warm up each other and achieve great results. Like Achmedes, give them a fulcrum for a lever, and they could raise the world, and perhaps they might be able to devise some method for the accomplishment of this great and desirable object They would probably call upon their Boston friends and others to help start the road fairly, and then with the aid of the State to the amount of $12 000 a mile, they could push the road through and thus secure to themselves and to the State the great benefits which it would yield

In the progress of the work, the people of the State would become interested, and the young men would say to each other, "what does this mean? the State of Maine has at length got its eyes open, and is building a noble railroad to the Aroostook country Come we won't go to Minnesota while these things are going on at home, and there is so much fine land down the east in Aroostook with a railroad running right through it.

He said that he thought the truest and the best policy for Maine now was to make a bold stroke and even risk a little something in order to secure a great and beneficial object He illustrated his proposition by referring to the bold movement of a sagacious and far seeing gentleman in Boston, who at eighty years of age made a heavy purchase of real estate, out of which he made a large fortune

The time has come he remarked, when necessity and policy combine to make it the duty of Maine to take this advance step boldly, and to put this railroad through to the Aroostook—make an opening to it the public domain, and give to the people the advantages of prosperous home within her own boundaries This measure ought to be adopted—must be adopted, or we might as well shrink back to the old British claim of all this territory down to Kennebec, and let the people go, and not trouble ourselves about making appropriations for roads and bridges, endowing academies, and educating Frenchmen, and in small matters putting the few settlers, whose trade we will not secure, and whose progress we will not promote, in the only substantial and practical way in which it can be accomplished, the building of a railroad

Washing for the City—Washing day taken out of the House.

And why not? The progress of man against material obstacles by means of machinery, has been so great within the past few years, that nothing desirable in that way seems impossible, and when we consider the labor and inconvenience of hand washing the wonder is that it was not taken out of the hand long ago Attempts to make patent machines suited to the strength of women and the convenience of the household, have not been wanting It is said that more patents have been granted to that and than to any other, and yet the hands keep at work and machines, for the most part, lie idle Still invention and perseverance are active, and refuse to succumb till the problem is fairly worked out Then let us women still hope Man's ingenuity is still toiling in our behalf, and if one he has succeeded in making a machine that will release us from the thrall of the needle, he will overcome the difficulty of washing, by means of wood and iron, controlled by the brain

The great difficulty in making a machine for washing successful lies in the fact that it is difficult to make a machine discriminate, and rub most on the most soiled parts of a garment But that is now, by a new process, in part overcome Another obstacle to the use of machines in the house is that to rub enough with them to cleanse the garment takes nearly as much strength as to do it by hand Now, if the ingenuity spent upon small hand machines had been applied to constructing a plan to collect the clothes into one establishment, and return them clean at a trifling expense it would seem that this problem of washing by machinery would, ere this, have been solved Three things make washing hard in the house First, the bringing and lifting a large quantity of water *twice*, second, the rubbing of the clothes, and lastly, the wringing It is easy to see that in a large establishment all the first could be avoided, and the last could be done by a lever press in an expeditious and thorough manner, and subject the clothes to no strain or wear The patent machine owned by one of our townsmen, has been tried long enough by good housekeepers to prove that it cleanses the clothes without injuring them, and an establishment which should turn these tubs by steam power, tended by women, as are looms in a factory, taking the clothes from every house, free from expense of carting, keeping them separate from others, and returning them pressed, dry and ready for the line, at a trifle more expense than the fuel and soap used at home in washing, is now in contemplation in our city It is estimated that this could be done at 9d a tubful If successfully carried out, what housekeeper would not rejoice? Not only would the labor and discomfort of washing day be avoided, but the economy in fuel, soap, and wear and tear of the home washing apparatus, would be no small item

The greatest drawback in putting this plan into execution is the difficulty of convincing a sufficient number of housekeepers that it will be for their interest to patron ze the institution It is an ungracious task to invest capital and pains without the pledge of patronage to sustain the plan However good it might be proved in the end, unless the public would perceive its advantages *at once*, embarrassment and loss would follow

"It is my beau ideal of comfort said one lady "to be able to live without a girl! We hope that all who have that laudable ambition will take an interest in this plan of taking some of the drudgery out of the house My washings are so large that I have to give extra wages, or hire a washer-woman, says another She too, must give her attention to the matter Finally all are interested if they only know it Let those who do not much mind washing day lend their sympathy to this movement, because it may be the stepping-stone toward removing other, and perhaps more dreaded, departments of drudgery *from* the house *into* the machine The new patent kneading and baking machinery of Burdan, carried by steam, which makes up eight barrels of flour as cheaply as one hand to be done, and supplies all who live near it with good bread and cheap, is no longer a doubtful experiment but an assured success The fact that one hundred bakers in Philadelphia protested against its erection there, proves that baking day is finally to be taken from the household, when good fresh bread can be received every day as well as milk The loss of time and fuel in baking our own bread should well pay a trade to make it better and cheaper than we can And it *must* be made better and cheaper by the trade, or the plan will not succeed, for women's time being generally unavailable for *earning*, is not taken into account in the cost of making it at home

But the washing day was our theme That Bangor and Bangor mechanics may have the honor of taking that great step in civilization, —the removing of the burden from the household—is the prayer of at least

ONE WOMAN

The Glens Falls Republican gives a long account of a novel way of paying old debts A citizen of standing, whose autograph was in the possession of a large number of gentlemen residing in and about Glens Falls, suddenly became melancholy, and spent most of his time in lonely meditation beside lamp posts and other convenient clearing places, while it began to be whispered that he was insane, and the remark "poor fellow, fell from the lips of all his friends and acquaintances At length the melancholy gentleman disappeared, and it was feared that he had "made away with himself. The holders of his autographs offered to dispose of the same at a heavy discount. Fortunately for them as they supposed, a person was found who offered to purchase the demands against the missing man, and did so for a mere trifle A few days after all the notes and accounts had been thus purchased, the missing pope reappeared, and hunting up his friends who had *run the risk* of purchasing the demands, handed over to him the amount advanced, and thus paid all his debts at a discount of 75 per cent.

Such times as the present should cause every business man, with a family dependant upon him, to consider what the condition of those he loves, might be should he be suddenly taken away by death. All can now fully realize the uncertainty and instability of fortunes made in business. The millionaire merchant of yesterday is to-day the insolvent debtor. To guard against such reverses let every man insure his life for the benefit of his family, which insurance cannot be disturbed by his creditors. The Mutual Benefit Life Insurance Company offers security and advantages not surpassed by any institution in the country—its investments are in first bonds and mortgages, on real estate worth more than double the amount loaned. One half of the Premium on Life Policies may be paid by note bearing 6 per cent. interest. Dividends are declared annually to those who have paid two Life premiums—there are no stockholders to take any of the profits which rightfully belong to those who are insured for life. Prospectuses, statements and applications will be furnished (without charge) and all information desired will be given by the undersigned Agent.

N. B.—Persons residing in any portion of the country, desirous of insuring their lives, will be supplied with all the necessary papers and with minute instructions to enable them to make applications by addressing the undersigned.

TELEGRAPHIC.

TO THE DAILY WHIG AND COURIER

CONGRESSIONAL.

WASHINGTON, 7th.

SENATE.—Mr Mason of Va. presented the credentials of Mr. Clingman as Senator from North Carolina, in place of Mr. Biggs.

In consequence of the death of Senator Evans of South Carolina, the Senate immediately adjourned.

HOUSE.—Mr Clingman of N. C. said he had had the honor to receive a commission from the governor of North Carolina to fill a place in the Senate. He had written him a letter of resignation of his seat as a member of the House to take effect to-day. In severing his connection with gentlemen here, he begged leave to remark that during a service of some dozen years he may have given offence either by objecting to business out of order, or by words in debate; but in this he was actuated by no feelings of personal unkindness, but governed by a sense of public duty. He parted with his associates in friendship and with many regrets.

By general consent on the motion of Mr Stephens of Ga., the vote on the Minnesota bill was postponed till Tuesday.

On motion of Mr Bonham of S. C. the House adjourned.

No reason was stated for the adjournment, but it was in consequence of the death of Senator Evans of South Carolina.

From Washington.

WASHINGTON, 7th.

Gen. Cramer, Chief Clerk of the Land Office at Lecompton, Kansas, who is now in this city, reports that there is a very general feeling of indignation in the territory at the arrangement of the sale of the Kickapoo and Delaware lands, and that meeting protesting against the sale have been held throughout the territory.

Senator Evans, whose decease was mentioned in the Senate to-day, was taken suddenly last evening, while supping with his colleague, Mr. Hammond, and died soon after taking home. His death was caused by disease of the heart.

Various Items.

ST. LOUIS, May 7.

The weekly Salt Lake mail under the new contract, left St. Joseph, Mo., on Saturday last, with about 800 pounds of mail matter and several passengers. The line connects at Salt Lake with one for Shasta City, Cal. The service to Salt Lake will be performed in 22 days, and thence to Shasta in 12 days.

CUTZTOWN, N. Y., 7th.

Mrs. Phebe Westlake, a widow residing in this place, was yesterday arrested on suspicion of poisoning several persons in this village. Last night she destroyed herself by taking arsenic. Before the suicide, she confessed that she had administered poison at different times to a Mrs. Fielder, who died about two weeks since very suddenly. She also confessed that she had administered poison to Mr. J. B. Tuthill, a merchant, who has recovered and is doing well. Mrs. Charles Tuthill and Mrs. Derrick are now very unwell, with every symptom of having been poisoned, and as Mrs. Westlake had lately sent them some preserves which they had eaten, it is supposed they were also intended by her as victims.

PHILADELPHIA, 7th.

During an alarm of fire this morning, Sniffer hose company attacked Moyamensing hose company, captured their carriage, demolished it, and pitched it overboard from Reed street wharf. Many shots were fired, but no one injured.

New York Markets.

NEW YORK, May 6.

FLOUR—State and western in slight demand—Superfine State 4.05 a 4.15; extra State 4.20 a 4.30; round hoop Ohio 4.25 a 4.45; common to good extra western 4.20 a 4.60. Southern steady—Mixed to good 4.45 a 4.70; fancy and extra 4.75 a 5.00. Canada—superfine nominal at 4.20 a 4.25; extra 4.30 a 4.50.

Wheat dull—Chicago spring 88.

Corn more active and lower—mixed western in Orleans 64 a 65; white 65 a 71 yellow 73.

Oats dull and unchanged—Southern and Jersey 30 a 31. Northern and western 41 a 47.

Beef steady—Country mess 10.75 a 11.50; prime nominal at 8.00 a 8.50; re-packed Chicago 12.75 a 14.00; prime mess nominal at 16.00 a 22.00.

Pork unsettled—Mess 18.37 a 18.50; prime 14.75 a 14.90; Western prime mess nominal at 16.75.

Sugars active and firmer—New Orleans 6¾; Muscovado 5¾ a 3¾.

Coffee in good demand—Rio 10 a 11½; St. Domingo 9.

Molasses in better request—Porto Rico 29 a 31; Muscovado 25 a 28.

Tuckerman, the noted mail robber, who pled guilty before the U. S. District Court on Saturday last, was brought before Judge Chas. Clapp still to receive his sentence. There were four counts against him, and he was sentenced on each count as follows: 1st count, ten years in prison; 2d count, four years; 3d count, three years; making in all 21 years in the State Prison. Rather a hard row to hoe, and a dismal prospect for the future; but he stood up and received the sentence without flinching a particle; indeed, he manifested no signs whatever of remorse or regret at sight of the utter ruin which he had brought upon his own head, and the disgrace which he has entailed upon his estimable wife and highly respectable family connections.

RELIGIOUS PERSECUTION IN AUSTRIA.—The Minister of Public Instruction and Worship in Austria has just published an order to the effect that any person who shall join or favor a new sect, called the New Jerusalem, (Swedenborgian,) which denies the necessity of public worship, ecclesiastical hierarchy, or different grades of civil society, shall be punished with fine and imprisonment.

Go away, Hard Times!

I mean what I say, and no mistake, I'm in such a sad condition, my old patrons, and new friends, in this my second season, know, as the times are hard, of which they are aware, I have to be economical in lumber and fuel as well as I, in these hard times must be the same economy, and call and get clothes cleaned and repaired. Remember, I hold Market Square, where you will always be accommodated.

Your old clothes will look so well, that you will scarcely know them, and if your clothes were never worn before, you will find them all the same as those the most of men, even unto twelve flights of stairs, come to me with courage and don't faint, but leave behind your cares.

I have worked for ten long years, with all grace and delight.

(To continue an honest livelihood) for friends, both day and night.

Now friends, don't let me want for work, as I am getting old.

I have to work to please my friends, of this you have my word.

My prices shall be reasonable, so cast aside your sorrows and call, and get work done by the subscriber.

EPHRAIM BARROWS.

☞ All orders promptly attended to, and the best of repairing duly received. april27 1w

SMITH'S ELECTRIC OIL.

This preparation, which has made such speedy cures in Philadelphia and many other places, begins to attract almost universal attention, and elicit comments of every kind. Some say it is IMAGINATION. Of course they assign any thing but the real and philosophical reasons.—Inflammatory Rheumatism, Gout, Palsy, Hams, Piles, Neuralgia, Salt Rheum, Erysipelas, Scaly Eruptions of the Skin, Womb Complaints, Abscesses, Croup, Asthma, Indolent Swellings, Stiff Joints, Felons, Wounds, and Sprains, Broken Breast, Hemorrhage, Sore Throat, Frost of Limbs, Acute Nervous Pains, Tooth, Ear, and Headache, Deafness, &c., and Teething children are very certain cured in from 5 minutes to a few days simply by the external use. Not any have used this oil without derriving some special benefit within an hour, and many are they who have been perfectly cured of the diseases very speedily.

Large Bottles Ten Times the Cheapest.

☞ KEEP WELL CORKED. ☜

Use according to directions. Apply with the warm hand only—eat plain food—drink no coffee.

A CARD.

To Druggists and Merchants of Maine.—For the convenience of dealers and individuals of this State, I have appointed U. H. HAY & CO., of Portland, my Wholesale Agents for the State of Maine, and they will be at all times supplied with all sizes of my "Genuine Electric Oil." I would urge on all dealers in medicine to order from Messrs. HAY & CO. a supply of my Oil at once, that they may be able to answer the earliest demands. They will also furnish each dealer with New Cards, Posters, and 500 Circulars, with their name printed thereon as agent.

AN ORDINANCE establishing the office of City Physician, and defining the duties thereof.

Sec. 1. Be it ordained by the Mayor, Aldermen, and Common Council of the City of Bangor, in City Council assembled, That there shall annually be elected, on the fourth Monday of March, a City Physician, whose duty it shall be to attend, under the direction of the Overseers of the Poor, upon all Paupers of the City, when in need of medical aid, including all inmates of the Alms House, Work-House, and House of Correction.

Sec. 2. The said City Physician shall annually in the months of May and June, and at such other times as the Superintending School Committee may direct, examine the Public Schools of the City, and vaccinate all the pupils belonging to the same, who have not been vaccinated, and deliver to every pupil a certificate thereof, and make a record of the same in a book to be kept for that purpose, and shall forthwith report to the Superintending School Committee the names of those scholars who refuse to be vaccinated, or who neglect, after due notice, to present themselves to the Physician for that purpose.

Sec. 3. It shall be the duty of the Superintending School Committee, to provide, at the expense of the City, all necessary books and blank certificates which may be required to carry out the provisions of the preceding section; and the said records of the City Physician, shall, at the close of his official term, be delivered by him to the Superintending School Committee, to be kept in the office of said Committee.

Sec. 4. The City Physician shall enter the names of every person or family he may visit in his official capacity, in a book to be kept for that purpose, and regular charges made for every such visit and prescription, and report the same to the Overseers of the Poor at the end of every month, and at the expiration of his official term he shall make a certificate of the correctness of the entries made by him, and return said record to the office of the City Clerk, to be then preserved with the other City records.

Sec. 5. He shall keep a record of all cases of disease and death which may occur among the Paupers of the City, including the inmates of the Alms-House, Work-House and House of Correction, embracing the general treatment and result of each case; the age, sex and disease of the patient; which shall be at all times open to the inspection of the Mayor, Aldermen, and Overseers of the Poor; and he shall annually, at the close of each municipal year, and as much oftener as he may think proper, make report to the City Council, in writing, the statistics and other matters of interest in his department.

Sec. 6. There shall be kept at the Alms-house a medicine chest, furnished under the direction of the Overseers of the Poor, at the expense of the City.

Sec. 7. The City Physician shall furnish, at his own expense, all necessary medicines for the Paupers of the City, other than inmates of the Alms House, Work House and House of Correction, and shall receive from the City Treasury for his services, including medicines to be furnished as aforesaid, such sum as the City Council shall annually determine.

Sec. 8. In cases of small pox or other infectious disease, the City Physician shall receive such compensation, in addition to his annual salary, as the City Council may deem just and proper.

Sec. 9. All ordinances and parts of ordinances inconsistent with this ordinance shall be, and are hereby repealed.

[Passed May 3, 1858.]

SMITH'S ELECTRIC OIL.

This preparation, which has made such speedy cures in Philadelphia and many other places, begins to attract almost universal attention, and elicit comments of every kind. Some say it is IMAGINATION. Of course they assign any thing but the real and philosophical reasons.—Inflammatory Rheumatism, Gout, Palsy, Hams, Piles, Neuralgia, Salt Rheum, Erysipelas, Scaly Eruptions of the Skin, Womb Complaints, Abscesses, Croup, Asthma, Indolent Swellings, Stiff Joints, Felons, Wounds, and Sprains, Broken Breast, Hemorrhage, Sore Throat, Frost of Limbs, Acute Nervous Pains, Tooth, Ear, and Headache, Deafness, &c., and Teething children are very certain cured in from 5 minutes to a few days simply by the external use. Not any have used this oil without deriving some special benefit within an hour, and many are they who have been perfectly cured of the diseases very speedily.

Large Bottles Ten Times the Cheapest.

☞ KEEP WELL CORKED. ☜

Use according to directions. Apply with the warm hand only—eat plain food—drink no coffee.

A CARD.

To Druggists and Merchants of Maine.—For the convenience of dealers and individuals of this State, I have appointed U. H. HAY & CO., of Portland, my Wholesale Agents for the State of Maine, and they will be at all times supplied with all sizes of my "Genuine Electric Oil." I would urge on all dealers in medicine to order from Messrs. HAY & CO. a supply of my Oil at once, that they may be able to answer the earliest demands. They will also furnish each dealer with New Cards, Posters, and 500 Circulars, with their name printed thereon as agent.

A. H. SMITH, Chemist,
Philadelphia.

THE CRYSTAL OIL LAMP,

For Burning the Crystal Oil, Combining Economy and Safety!

PATENT RIGHTS

FOR STATES & COUNTIES FOR SALE!

This important invention for producing the *cheapest* light in the world, is now perfected and offered to the public. Numberless other attempts have been made to produce a cheap light, but were attended with such inherent objections as to destroy their utility and adoption. But the Crystal Oil Lamp, while it is the *cheapest*, is both safe and agreeable in *every* position, making a *clear, white and brilliant flame, entirely free from smoke or odor.* There is no danger from explosion, but is *perfectly safe* under all circumstances. The oil can be used in any place without fear of soiling the nicest garments. The lamps are *simply* arranged and *perfectly* controllable by the children and domestics, and so constructed that the light can be varied in a moment from that of one to eighteen or twenty ordinary lamps. While it is free from the disagreeable smell arising from the Kerosene, and the danger attending the use of burning fluid, it is found upon scientific comparison to produce

As much LIGHT for ONE CENT as Kerosene will for Three Cents, or Burning Fluid will for Six Cents.

Thus saving five-sixths of the entire amount now expended, or the price of the lamp in about a month. They are adapted to all situations, making the cheapest and most desirable light for every place—the largest halls or churches as well as private dwellings. The patent on this is up for the different States and Counties throughout the Union, with the exclusive sale of the Crystal Oil, is now offered to the public, presenting a rare opportunity for merchants to secure for themselves the monopoly of a trade entirely free from opposition. Facilities are completed for the manufacture of the lamps in such quantities that they will be furnished to the purchasers of rights in any style, at such a cost as will yield an almost incredulous profit. These rights will be closed off immediately, and the lamps and oil delivered as soon as desired. As no lamps or oil will be sold to any but purchasers of rights, all letters making the request will not be noticed. Communications addressed to the "Crystal Oil Lamp Co., No. 5, Merchants Row, will be promptly attended to.

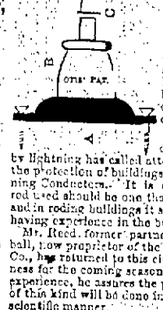
Ctis' Lightning Rods.

☞ *The only Patent which affords absolute Protection against Lightning*, as demonstrated by science and experience.



This Rod has been extensively used thro' the Southern & Western States, West Indies and the Canadas, since 1851 and though it has been struck in hundreds of instances, it has never *failed to protect.*

The great amount of damage done recently by lightning has called attention, as it should, to the protection of buildings by the use of Lightning Conductors. It is all important that the rod used should be one that will *give protection*, and in roding buildings it should be done by one having experience in the business.

Mr. Reed, former partner of B. P. M. Kimball, now proprietor of the patent for Penobscot Co., has returned to this city to commence business for the coming season. Having had large experience, he assures the public that all his work of this kind will be done in a thorough, neat, and scientific manner.

☞ Samples of this Rod, and certificates of its merits from many of the most eminently scientific men in the country, may be seen at D. M. HOWARD'S Store, on Exchange street, No. 15; and at Dodge's Hotel and the Franklin House, Harlow st., Bangor.

J. D. REED, Proprietor.
A. K. P. BERRY, Agent for the sale of Rods this season.
Bangor, April 30, 1858. 3taw3m

P. S.—Exclusive rights for Hancock and Aroostook counties, where this rod has not been introduced, for sale on application to A. K. P. BERRY, agent at Franklin House, Bangor.

Hitchcock's Combination Suction and Force Pump

FOR SALE, a new kind of PUMP—suction and force—different from any thing now in use, for durability, &c. You can draw water from a deep well and force it to any part of your building at the same time, in case of fire or any other exigency. You can have it with or without the forcing part. Any person with a jack-knife can do all the repairing that it will need for twenty years, as it will not get out of order and is not liable to freeze up like other Pumps. It has received the first premiums at four State fairs, and numerous county fairs.

It may be examined at the Tin Shop of P. B. MILLS, Exchange street, Bangor, where I shall remain for a few weeks. Town rights for sale.

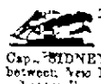
SUMMER ARRANGEMENT

NEW YORK & PORTLAND.



The Splendid and Fast Steamer

Chesapeake,

Capt. SIDNEY CROWELL will run regularly between New York and Portland as follows:

Leaves Brown's Wharf Portland every SATURDAY at 4 P. M. and returning leaves New York, Pier 12 N. R., every TUESDAY, at the same hour.

This vessel has just been fitted up with fine accommodations for passengers making this the most speedy safe and comfortable route for travellers between New York and Maine.

PASSAGE, $5 00—including Fare and State Rooms.

☞ Goods forwarded by this line to and from Montreal, Quebec, Bangor, Bath, Augusta, Rastport and St. John. Also, connects with steamers for Baltimore. Goods taken through with despatch at the cheapest rates.

For freight or passage apply to

EMERY & FOX, Brown's Wharf, Portland. H. B. CROMWELL, Pier 12 N. River, New York.

Portland, April 2, 1858.

California Steamers,

Carrying the United States Mail.

5th and 20th of each month.

Through Tickets via the Nicaragua route of the Isthmus via Panama R. R.

By order of the Postmaster General, the United States Mail Steamships will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Dept. Aspinwall and conveyed across to the Pacific Steamers *without any extra expense*. This is the *only* line giving entire through tickets including meals on the Isthmus.

Transit made in *four hours entirely by day light*, thus avoiding the great exposure by night in open boats to fever and ague and 200 miles of dangerous lake and river navigation over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers thus securing passengers by the Mail Line a *sure* and *short* passage without any detention on the Isthmus.

☞ *Tickets must be signed by one of the Company's Agents before they will be recognized by the Agents at Panama* and tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies in this city.

C. L. BARTLETT, Agent,
No. 10 Broad Street, Boston.

Aug. 1, 1857. 1y

Portland to Boston.

Summer Arrangement

The Steamers LEWISTON, Capt. Owen Knight, and the FORESTCITY, Capt. F. A. Prince, will run as follows:

Leave Atlantic Wharf, Portland, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 7 o'clock P. M., and Central Wharf, Boston, every Monday, Tuesday, Wednesday, Thursday and Friday, at 5 o'clock P. M.

Fare in Cabin	$1 25
Fare on Deck	1,00

Freight taken as usual.

Each Boat is furnished with a large number of State Rooms for the accommodation of Ladies and families, and travelers are reminded that by taking this Line much saving of time and expense will be made, and that the inconvenience of arriving in Boston at late hours of the night will also be avoided.

The Boats are provided so as to enable passengers to take the earliest trains out of the city.

The Company are not responsible for baggage to any amount exceeding $50 in value, and that personal, unless notice is given, and paid for at the rate of one passenger for every $500 additional value.

June 12, 1857. dtf. L. BILLINGS, Agent.

Blackwood's Magazine

AND THE

BRITISH REVIEWS.

L. SCOTT & CO. New York continue to publish the following leading British Periodicals, viz:

THE LONDON QUARTERLY (Conservative.)

THE EDINBURGH REVIEW (Whig.)

THE NORTH BRITISH REVIEW (Free Church.)

THE WESTMINSTER REVIEW (Liberal.)

BLACKWOOD'S EDINBURGH MAGAZINE (Tory.)

These Periodicals represent the three great political parties of Great Britain—Whig, Tory and Liberal—but perhaps only one feature of their character. As organs of the most profound writers on Science, Literature, Morality and Religion, they stand as they ever have stood unrivaled in the world of letters, being considered indispensable to the scholar and the professional man, while to the intelligent reader of every class they furnish a more correct and satisfactory record of the current literature of the day, through out the world, than can be possibly obtained from any other source.

EARLY COPIES.

The receipt of ADVANCE SHEETS from the British Publishers gives additional value to these Reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

TERMS.

	Per Ann.
For any one of the four Reviews,	$3 00
For any two of the four Reviews,	5 00
For any three of the four Reviews,	7 00
For all four of the Reviews,	8 00
For Blackwood's Magazine,	3 00
For Blackwood and three Reviews,	9 00
For Blackwood and the four Reviews,	10 00

Payments to be made in all cases in advance. Money current in the State where issued will be received at par.

CLUBBING.

A discount of twenty-five per cent from the above prices will be allowed to Clubs ordering four or more copies of any one or more of the above works. Thus for four copies of Blackwood or of the Reviews will be sent to one address for $9; four copies of the four Reviews and Blackwood for $30, and so on.

POSTAGE.

In all the principal Cities and Towns these works will be delivered FREE OF POSTAGE. When sent by mail, the POSTAGE to any part of the United States will be but TWENTY FOUR CENTS a year for Blackwood, and but TEN CENTS a year for each of the Reviews.

N. B.—The price in Great Britain of the five Periodicals above named is $31 per annum.

American Safety Paper

Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographic and Anastatic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Lynnet of the New York Clearing House and Meade Brothers extensive and skilful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safe Paper. Below is our list of prices:

Bank Checks—7 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$20 for 1000 sheets.
Promissory Notes—40 cts. per lb.
Sight and Time Drafts—$20 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb.
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent as it prevents moths. 40 cts. a lb.

For Bride Cards and Agreements 40 cts. a lb.

All State and County Records should always be printed or written on this paper as the chemicals fixed in the paper not only prevents erasure or transfer but makes it lasting as time.

For Southern climates it is excellent and much superior to any other as the moisture of the climate does not destroy it—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies and the Central American States no public records can be kept over 20 years, written on the ordinary paper, while the inks and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also *proof* against moths, rats and other vermin which eat and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of about 200 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street, New York.

july29

To Mechanics, Inventors, and Manufacturers.

IN anticipating the THIRTEENTH Annual Volume of the SCIENTIFIC AMERICAN, the Publishers respectfully inform the public that in order to increase and distribute the formation of clubs they propose to offer

One Thousand Five Hundred Dollars in Cash Premiums,

for the fifteen largest lists of subscribers sent in by the 1st of January 1859, and premiums to be distributed as follows—

For the largest list $300, 2d, $200, 3d, $200, 4th, $150, 5th, $100, 6th, $80, 7th, $80, 8th, $70, 9th, $60, 10th, $50, 11th, $40, 12th, $30, 13th, $30, 14th, $25, 15th, $20.

Names of subscribers can be sent in at different times and from different post offices. The cash will be paid to the orders of the successful competitors immediately after the 1st of Jan. 1859.

Southern, Western and Canada money will be taken for subscriptions. Canadian subscribers will please to remit twenty-six cents *extra* on each year's subscription to prepay postage.

Terms of Subscription—Two Dollars a year, or One Dollar for Six Months.

Club Rates—Five Copies for Six Months, $4, Five Copies for Twelve Months, $8, Ten Copies for Six Months, $8. Ten Copies for Twelve Months, $15. Twenty Copies for Twelve Months, $23.

For all Clubs of Twenty and over the yearly subscription is only $1 40.

The new volume will be printed upon fine paper with new type.

The general character of the SCIENTIFIC AMERICAN is well known and as heretofore it will be chiefly devoted to the promulgation of information relating to the various *Mechanical and Chemical Arts, Manufactures, Agriculture, Patents, Inventions, Engineering, Mill Work*, and all topics which the light of intelligent Science is calculated to advance. It is issued weekly in form for binding; it contains usually from 300 to 600 finely executed Engravings and notices of American and European improvements, together with an Official List of American Patent Claims published weekly in advance of all other papers.

It is the aim of the Editors of the SCIENTIFIC AMERICAN to present all subjects discussed in its columns in a practical and popular form. They will also endeavor to maintain a candid fearlessness in combatting and exposing false theories and practices in Science and Mechanical matters, and thus preserve the character of the Scientific American as a reliable Encyclopedia of Useful and Entertaining Knowledge.

Specimen copies will be sent gratis to any part of the country.

American & Foreign Patents.

R. H. EDDY,

Solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under Act of 1837.)

76 State Street, opposite Kilby st.,
BOSTON.

AFTER an extensive practice of upwards of twenty years continues to secure Patents in the United States, also in Great Britain, France and other foreign countries. Caveats, Specifications, Assignments and all Papers or Drawings for Patents executed on liberal terms and with despatch. Research made into American or Foreign works to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England but through it inventors have advantages for securing Patents or ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY he would add that he has abundant reason to believe and can prove that no other office of the kind are the charges for professional services as moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, with his extensive library of legal and mechanical works and full accounts of Patents granted in the United States and Europe, render him able beyond question to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq. of Boston, did business at the Patent Office as solicitor for procuring patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the first, tried and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

[From the present Commissioner.]

ABERT, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq. of Boston has been extensively engaged in the transaction of business in the Office as solicitor. He appears fully acquainted with the law and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

CHARLES MASON,
Com'r of Patents.

Sept 1, 1857.—3tw4dkwcowly

WORLD'S BLESSING!

RHEUMATIC NEURALGIC & SPINAL BALM.—*A Miracle of the Nineteenth Century.*—A son of Mr. L. Colbroth has been suffering the last two or three weeks with a severe case of Rheumatism—so much so that he was prostrated, and was unable to move himself in bed, and his friends considered him dangerously sick. Dr. J. B. N. Gould of Boston, who has discovered a remedy for Rheumatism, Neuralgia and Spinal Disease, arrived in town on Saturday, and has taken rooms at the Bim House. The Doctor was called on to treat his case, and in one hour from the time he applied his Rheumatic Balm he was able to leave his bed and walk his room, and is now free from rheumatism. This is indeed a wonderful discovery. [From the Eastern Argus, Nov. 24, 57.

Sold by his Agent, N. S. HARLOW, No. 4 Smith's Block, Bangor. dec11

NATIONAL ERA.—Persons wishing to remit new their subscriptions to the National Era, are requested to call immediately at

A. BARTLETT'S.

THE HATCH HOUSE,

Main Street, Bangor, Maine.

This House has been thoroughly repaired refitted, and refurnished throughout with New Carpets, Furniture, Beds and Bedding, and is now open for the reception of company, under the charge of the subscriber.

It is a large, commodious, and well furnished House situated on Main Street near the centre of the city, and within a short distance of the Steamboat Wharves and the Depot of the P. & K. Railroad, to and from which Coaches are always in readiness to convey passengers.

Its numerous advantages to strangers and particularly to those visiting the city on business or for pleasure, renders it one of the most desirable Houses in the city.

Connected with the House is a large and commodious Stable in charge of competent and faithful hostlers.

By strict personal attention to the comfort of his guests the proprietor hopes to receive a liberal share of patronage.

NATHAN PERRY, Jr.

Bangor, Feb. 26, 1856.

The Mountain House,

CAMDEN,

Has been refitted and opened for the accommodation of the Traveling Public and Boarders.

TERMS, $1 00 PER DAY.

The subscriber also offers the said stand and furniture for sale.

B. W. PENDLETON.

Camden, July 17, 1857.

AMERICAN HOUSE,

BOSTON.

Re establishment of the old plan of management.

LEWIS RICE, Proprietor, respectfully announces that he has resumed the *old plan* of management as it existed before the recent alteration. "Trial of the European System in this Hotel proves that although the advantages are great, yet the house is better adapted for the *smaller class* of hotels."

The accommodations and conveniences of the House are unsurpassed, and the recent improvements and alterations, for the comfort of guests, leave nothing to be desired.

Boston, Sept. 16, 1857. 3m vbp

TREMONT MILLS,

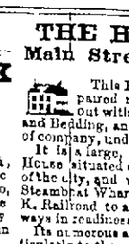
TEAS, Coffees, Chocolates, Cocoas, Spices, &c.

WHOLESALE—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.,

(Sign of the Chinaman grinding Coffee.)

No. 6 Broad, near State Street ..... Boston.



Supply the best, finest and purest articles at the *lowest Cash prices*. Their Stock consists of:

Teas, Coffees, Chocolates, All spice, Pepper, Mustard, Ginger, Cayenne, Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Tarazacum, Prepared Dandelion, Root, &c.

Having every facility for manufacturing and preparing the several articles named, and the public may rely on having them *pure and genuine* as they are put up carefully and bear our name and label, "TREMONT MILLS, E. E. DYER & CO." To give consumers some idea of our sales we annex the following scale of prices, viz:

5 lb. best Young Hyson Tea,	1 75	lb. Mocha Coffee	1 10
5 lb. Young Hyson Tea,	2 00	5 lb. Java Coffee	1 00
5 lb. Young Hyson Tea,	2,50	8 lb. good Coffee	1 00

☞ The Spices are put up in ¼ and ½ lb. tin cans expressly for family use, and are warranted to prove to be a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of consumers and dealers to our *Spanish Coffee* as an article which is highly esteemed and gives universal satisfaction. It is prepared with a peculiar care and by a peculiar process in roasting one pound of this coffee it is believed is equal to 1½ lbs. of any other.

DANDELION COFFEE.—This article is carefully prepared at our mills, and put up in packages having our trade mark and may be relied upon as the best and most approved mixture of dandelion and coffee.

TARAXACUM, or *Prepared Dandelion Root*. This article is prepared and roasted at our Mills, to be sold by Family Grocers generally in city and country, and bearing our trade mark, *Chinaman grinding coffee*, may be relied upon as the *genuine article*. The proportion used is about one half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root with all its medicinal virtues retained, can be mixed with coffee or not as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians to invalids, children and aged persons as a nutritious beverage, and as a remedy for Dyspepsia, Bilious affections, &c.

☞ Be careful to observe that all our Taraxacum has our trade mark—Chinaman Grinding Coffee—as there are many imitations of our article called Taraxacum in the market.

☞ To Grocers and Dealers a liberal discount is made, enabling them to supply their customers at the same low rates.

TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system, and we confidently invite an examination of the *quality* of our stock and our prices, as compared with those of any other house.

Boston, April 3, 1857. 3tawdawly

NEW AND IMPORTANT DISCOVERY IN THE SCIENCE OF MEDICINE.

TRIESEMAR.—None are genuine unless the engravings of the Seals of the Patent Office of England, the Seals of the Boards of Pharmacie de Paris and the Imperial College of Vienna are fixed upon each wrapper and around each case.

Sold by Dr. H. A. BARROW—Member of the Imperial College of Vienna, and Royal College of Surgeons, London, who may be personally consulted at his residence, No. 167 Prince Street (few blocks West of Broadway) New York, from 11 o'clock in the morning till 12, and from 4 o'clock till 8 in the evening. (Sundays excepted.)

TRIESEMAR No. 1.—Is the remedy of general and local debility, loss of virile power, premature decay, and all the distressing consequences arising from early abuse, &c., all physical impediments vanish like magic before its influence, thus rendering its use invaluable to those entering the marriage state.

TRIESEMAR No. 2.—Entirely eradicates all traces of those disorders which copaiva and cubebs have so long been thought an antidote for to the ruin of the health of a vast portion of the population.

TRIESEMAR No. 3.—Is the great European remedy for that class of disorders which unfortunately the English physician treats with mercury to the inevitable destruction of the patient's constitution and which all the Sarsaparilla in the world cannot remove.

TRIESEMAR Nos. 1, 2 and 3—are prepared in the form of a lozenge, devoid of taste or smell, and can be carried in the waistcoat pocket. *Sold in tin cases and divided in separate doses, as administered by Valpeau, Lallemand, Roux, Ricord, &c.* Price $3 each, or four cases in one for $9, which saves $3, and in 27 cases whereby there is a saving of $9.

Special arrangements have been made with the various Expresses, the long dollar cases of the Triesemar and the larger sizes will be forwarded by Dr. Barrow carriage paid immediately on receiving a remittance, to any part of the world, securely packed and addressed according to the instructions of the writer, thus securing to the public genuine European preparations and effectually protecting them from spurious and pernicious imitations. The three dollar cases sent as usual, but not free of carriage.

☞ No. 167 Princess st., (a few blocks west of Broadway) New York.—jan 13 1y

BIOGRAPHY OF DR. KANE, FLETCHER'S WORK ON BRAZIL. The Agent has left us a few copies of the above Works, which can be procured at the Bookstore of E. F. DUREN, Hammond Street, opp. City Hall.

Premium awarded to T. C. BUTLER, Derby Line, Vt., on MILLER'S CONDITION POWDERS, for Horses & Colts, at the Vermont State Fair, held at Burlington, Vt., Sept. 9, 10, 11 and 12, 1856.

MILLER'S

CONDITION POWDERS

For Horses & Colts.

PRICE—Twenty-five Cents.

THE changes of weather and season, with the changes of use and feed, have a very great effect upon the blood and sinuous fluids of horses. At these changes they require an assistant to nature to throw off any disorder of the fluids of the body that may have been imbibed and which, if not attended to, will result in the Yellow Water, Heaves, Lots &c., all of which will be prevented by giving one or two of these Powders, Spring or Fall, and will at any time cure where any symptoms of disease appear, if used in time. They purify the blood, remove all inflammation and fever, loosen the skin, clean the water, and invigorate the whole body, enabling the animal to do more work with the same food.

The action of these powders is directly upon the secretive glands, and therefore all diseases arising from or producing a bad state of the blood are speedy cured by them. Also, colds and sore feet of any kind are cured by one or two of these powders, if given according to directions.

In all cases of Horse Distemper, they should be given at the first symptom to prevent fevers, and in the last stage to carry off all humors of the blood and to restore a healthy action to the glands of the throat.

We the subscribers hereby certify that we have used *Miller's Condition Powders*, for Horses and Colts, prepared by *T. C. Butler*, Druggist, Derby Line, Vt., and think them the best Powders for Horses and Colts that are out of condition, that we have ever used. We would recommend them to Farmers, Stage Companies, Stablemen and others dealing in or keeping Horses and Colts.

They will clean the Worms and Botts out of a Horse's stomach and give him a good appetite for his food and a good coat.

They are also good for the Heaves and for a Cough, and they have been highly recommended for the cure of Worms and Bots in Colts.

They clean the water, loosen the skin and invigorate the whole body, enabling the horse to do more work with the same feed. (Signed by)

Timothy Winn—Mr. Butler would say that Mr. Winn is the proprietor of the Canada House and stage office on Stanstead Plain and was for many years proprietor of the Derby Line House, Derby Line, Vt., where he raised the black colt called the Know Nothing, which was sold at $1800 at four years old.

Brastus Lee—Mr. Lee is one of the most extensive farmers in Eastern Canada and has raised some very valuable horses, which he has sold at high prices. This gentleman raised and sold the pay horse called Charley, which was afterwards sold for $1000 and taken to France. He also raised and sold the horse called Bony, which had been taken to California and is held at $15,000. Mr. Lee keeps from 40 to 60 horses and colts and makes great use of Miller's Condition Powders.

Wm. B. Hoyt—keeps the Lyndon House and Livery Stable at Lyndon, Vt.

H. Heath—drives from Lyndon to St. Johnsbury.

A. B. Faint—St. Johnsbury, Vt., dealer in horses.

Geo. A. Merrill, St. Johnsbury, Vt., Master of Transportation on the Road.

H. A. Quimby—Merchant, Lyndon Centre, Vt., and keeps the Powders for sale.

We the undersigned fully concur in the above recommendation of Miller's Condition Powders.

Charles Sayer, Livery Stable keeper, Portland.
John A. Marr, " " "
Geo. Webster, " " "
O. C. Frost, owner of Hacks and Livery Stable Keeper, Portland.
Samuel A. Coles, owner of Hacks and Livery Stable Keeper, Auburn.
G. L. French, owner of line Stages, Auburn to North Turner.

C. W. ATWELL, Deering Block, Portland, General Agent for Maine.

Sold by all the Bangor druggists and dealers in Medicine everywhere. cowdtawdkw m30

ADDRESS

To the People of the United States.

The Human System is infested with three distinct kinds of

WORMS,

Namely—The Tape Worm, the Round or Stomach Worm, and the Seat, or Pin Worms,

each having their peculiar seat upon the system in accordance with the abundance that may be lodged either in the stomach, intestines, or rectum, or the places they may inhabit.

"WHAT SHALL I TAKE?"

Why, purchase a 25 cent Bottle of

HOBENSACK'S WORM SYRUP,

For, by using it according to the directions, you can cure yourself and children of

WORMS!

It is certain to cure you as it has cured others if you are conscious of your own existence, and if you are suffering after reading this pamphlet you must attribute your lead to a miserable existence to your own carelessness, for if any of the symptoms laid down in the pamphlet are visible, or felt you need no longer doubt but become satisfied that Worms are the cause of all your suffering. To you then I confidently recommend the use of my

WORM SYRUP.

From the knowledge of the powerful vegetable ingredients of which it is composed together with the numerous unsolicited testimonials I am daily receiving from families and others who have been restored to health by a timely use of the

Vegetable Worm Syrup.

"Mother, I cannot take it!"

How often is this said by the many children who are drugged with Castor Oil, Turpentine and such like nauseous doses by their parents for WORMS, simply because they are led by the ignorant, to believe they are CURE ALLS.

But that difficulty is now obviated by the use of my

WORM SYRUP,

which is compounded in such a manner that, I have never known a single case in which they have

REFUSED TO TAKE IT

as it is made in the form of a Syrup and palatable to the taste of the most fastidious, and children rather than refuse to take it, have actually been known to cry for it, so parents will find no difficulty in getting any child to take it—and yet while it is so pleasant to the taste it is the

Most Certain and Effectual Medicine EVER DISCOVERED!

and can be administered to the most *tender infant* with decided benefit.

Where BOWEL COMPLAINTS and DIARRHŒA have made them weak and debilitated, ONE SINGLE DOSE

destroys the venom from the system, many times of the poor suffering children.

J. N. HOBENSACK, Phila.,
Proprietor.

C. W. ATWELL, Deering Block, Market Sq., Portland, is General wholesale Agent for Maine, to whom all orders should be addressed.

Sold by all dealers in Medicine everywhere.

The price varies from *Fifteen* to *Thirty* Dollars, according to finish.

To Public Institutions as well as to individuals, this Chair is a very desirable article, and will be supplied in any number on the most liberal terms. Apply to, or address

M. W. KING & SON,
438 Broome street, one door East of Broadway,
may8 1y New York.—(Late 468 Broadway.)

MRS. WINSLOW'S

SOOTHING SYRUP,

For Children Teething.

THIS Valuable Preparation is the prescription of one of the most experienced and skillful Nurses in New England, and has been used with *never failing success* in

THOUSANDS OF CASES!

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and vigor to the whole system. It will almost instantly relieve

Griping in the Bowels,

and overcome convulsions, which if not speedily remedied end in death. We believe it the best and surest remedy in the world, in all cases of

Dysentery and Diarrhœa in Children,

whether it arises from teething or from any other cause.

C. W. ATWELL, Portland, General Agent for Maine. Sold by all dealers in medicine everywhere.

apr6 cowdtawdkw

Ayer's Pills

Are so far superior to all other cathartics, as to stand almost alone in their power to benefit mankind. As a family physic, they are the best, most agreeable, and safest purgative that can be used. A single dose cures the ordinary disorders of the stomach, bowels, liver, and blood, such as Costiveness, Dyspepsia, Biliousness, Jaundice, Dysentery, Rheumatism, Gout, Neuralgia, Dropsy, Worms, Erysipelas, Ulcers, Eruptions, Tetter, Ringworm, Scurvy, Scald Head, Sores, Blotches, Tumors, Boils, Tremors, Nervous Irritability, Female Complaints, Pain in the Side, Back and Loins, Suppression, Retention, Gravel, Piles, Blindness, Headache, Dropsy, Fever, Ague, Fever and Ague, Liver Complaint, Bilious Fever, Bilious Colic, Inflammation of the Bowels, Dysentery, Cholera, Cholera Morbus, Nausea, Indigestion, Loss of Appetite, Pain, Sickness, Fever, Mortification, Nervous Debility, Sleeplessness, Mental Anxiety, Hypoch
